**Letter of Recommendation for Mochammad (Tony) Tontowi**

Dear Hiring Manager,

Mochammad (Tony) Tontowi worked on my team as a student graphic designer. Previously, he worked as a student UI/UX designer.

During his time on my team, he produced a wide range of marketing collateral. These included, for example, flyers, brochures, and images for social media and for the web.

I recommend hiring Tony for future roles. Despite his rank as a working student, he consistently produced designs that were at a level expected of a full-time, entry-level designer. He responded well to feedback, making all requested changes and paying close attention to detail.

I am sorry to see Tony go. I believe he will be a strong asset either as a marketing designer or as part of a UI/US design team.
